ŠkodaOctavia
Laurin & Klement

Laurin & Klement are not just legendary pioneers of the automotive industry. These names are also synonymous with the famous automobile brand, manufactured in Mladá Boleslav since 1905.

Laurin & Klement had always been keeping up with technological developments and offered the highest structural quality, exceptional design, selected materials and sophisticated

details. Their cars were tailored to the individual wishes of the customers and in their time, virtually amounted to works of art, aside from being the essence of luxury.

Following the merger of Laurin & Klement with the Škoda enterprise from Pilsen (in 1925), the face of the cars from Mladá Boleslav started to carry the Škoda logo. At first, it shared a place with the L&K mark, later assuming the position on its own.

Škoda thus carries on the tradition of manufacturing cars in Mladá Boleslav while adopting the business strategy of the original company, Laurin & Klement, to produce modern, comfortable cars with extensive equipment, to emphasise eye-catching details, employ a personal approach to customers, to provide for individual desires and to offer its cars at attractive prices.

We share the visions of our predecessors and their enthusiasm, which they employed in smoothing the path of the automotive industry. Just as our predecessors did, we look for new approaches and exceptional solutions that will satisfy even the most demanding customers. Thus it was natural that when it came to the exclusive range of Škoda models with the highest levels of equipment, intended for those who demand luxury and comfort, we settled for the name Škoda Laurin & Klement.

Octavia L&K

The elegant curves and unique style will captivate you.

The exclusive spacious and completely functional interior will win you over. Wherever you look within the interior of a Škoda Octavia Laurin & Klement, everything has been developed with respect for your refined taste and your driving pleasure.

Octavia
Combi L&K
a Octavia
Combi 4x4 L&K

An exceptional luggage compartment is an integral comfort factor. The Octavia Combi Laurin & Klement is a blend of a family vehicle with practical features and a car with an attractive timeless design with a sporty feel. If you are a fan of a sports driving you can go for the 4x4 version. You can further add to the attractiveness of either version by adding a silver roof railing.

The original L&K badge decorates the front mudguards.

1. The Royalty interior with Sterling upholstery provides exceptional comfort.

2. The electrically adjustable sunroof is available as an optional extra.

3. The rain sensor integrated in the interior rear-view mirror is an elegant solution for

unfavourable weather and is standard equipment for all Octavia L&K versions.

4. The L&K emblem as a mark of genuine design on the seat upholstery.

5. The Piano Lack black decor with a high-polish effect overlays the interior of the car including the door inserts.

6. Xenon headlamps with dynamic adjustment not only increase the attractiveness of the car but

mainly provide high luminous intensity.

7. Decorative door sill strips with the L&K emblem are one of the characteristic marks of the L&K model.

8. The double exhaust tailpipe lends the L&K model an exclusive feel.

9. 7.0J x 17" Sputnik alloy wheels with a polished surface are standard equipment of all Octavia L&K models.

ESP (Electronic Stability Programme) is one of the

intelligent electronic systems that contribute to the increased safety of the crew.

1. The Audience radio with a dual tuner, CD and MP3 player and an integrated 6-CD changer features an AM/FM radio with RDS system. It is further equipped with a large DOT-matrix display which can also show,

in addition to outdoor temperature and time, data from the Climatronic air conditioning, parking sensors and hands-free set.

2. The Columbus navigation system displays the direction of the route, distance to the destination and turning points both on its colour navigation display and within the driver's field of view on the Maxi DOT display. It also allows you to receive traffic reports, play CDs, connect a CD changer and it's compatible with Sound System. Navigation DVD is not included.

3. Climatronic – dual-zone air conditioning with electronic regulation allows you to choose different temperatures for the right and left side of the interior.

4. The Maxi DOT multifunction DOT-matrix display increases the driver's driving comfort by bringing useful data within his/her field of view.

5. The cruise control which automatically maintains a set speed makes long journeys more pleasant.

One of the most important goals of Škoda Auto is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our Škoda cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathodesis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines of Škoda Auto meet the current emission regulations. We also offer diesel engines with Diesel Particulate Filters (DPF). All products made by Škoda Auto adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, Škoda cars meet technical, safety, quality and environmental requirements. Škoda Auto contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses Škoda Auto's awareness of responsibility for, and attempts at, the sustainable development of the company and a friendly approach to life and nature.

Some models in this catalogue are shown fitted with extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes

(including changes of technical parameters or individual model equipment). Please consult your authorised Škoda partner for further details on standard and extra equipment, current prices and delivery terms and conditions. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
